- ISO/IEC 18013-2
- ISO/IEC 18013-3
- ISO/IEC 18013-4
- ISO/IEC 18013-5
- ISO/IEC 18013-6
- ISO/IEC 18013-7
- ISO/IEC TS 7367
- ISO/IEC TR 19446

Next Meeting

- Virtual meeting on 30 July 2025

Discussion and outcomes of WG10

Thank you Deutsches Institut für Normung (DIN)

Thank you DIN and members for hosting WG10 in Berlin. It was a wonderful location and great facilities that allowed us to have a wonderful hybrid meeting.

ISO/IEC 18013-5 second edition getting ready for DIS Ballot

The second edition of ISO/IEC 18013-5 is being readied for ballot. The changes include:

- Enhanced reader requests:
 - Reader can specify which type of alternative credentials are accepted for example: mDL or Photo ID
 - Reader can specify which alternative data elements can be accepted to meet the request
 - Reader can specify what is mandatory and what is optional
 - Reader can specify if multiple responses can be received at once or limited to a single one
- Revocation status
- Improvement for faster communication establishment for handover to BLE
- Support for Zero Knowledge Proofs (ZKP).

mDL Test Methods

A private GitHub group will be established to host ISO/IEC 18013-6 test methods in preparation of update of ISO/IEC 18013-6.

Mobile Vehicle Certificate (mVC) and consideration for Roadworthiness certification

Scoping or Roadworthy Certificates will commence, firstly identifying use cases for consideration, then requirements. Going to CD Consultation for the mVC TS7367

Future Meeting

- 30 July Virtual meeting dedicated to reviewing proposals by Open ID Foundation
- 9 to 11 September in Phoenix, Arizona in conjunction with the AAMVA Annual International Conference (AIC)
- The week of 17 November, Wellington New Zealand, hosted by New Zealand Transport Authority, Waka Kotahi (NZTA) It is proposed to also host an Interoperability event.
