Discussion and outcomes of WG10

Thank you, New Zealand Government and New Zealand Transport Authority (NZTA)

NZTA Hosted Working Group 10 and 4 in Wellington New Zealand and members were also welcomed and participated in the 12th International Interoperability test event and showcase of ISO/IEC 18013 and 23220 implementations.

ISO/IEC 18013-2 Amendment 2

WG10 members reviewing Amendment 2 prior to submitting for DIS ballot.

ISO/IEC 18013-2 Amendment 2

New revision updates to be included which also takes into consideration updates identified in 18013-2 amendments

ISO/IEC 18013-6 Second edition DTS Ballot

This has now been completed and publication expected soon. Thanks to all those that have contributed.

Taskforce 7 (TF7)

As part of the New Zealand event, Interoperability and showcase participants were interviewed. This and B roll collected will be stored to support an educational program led by TF7 through the GitHub repository.

Post Quantum Cryptography (PQC)

Discussion on how PQC coming changes can be incorporated into ISO 18013 series

New GitHub repository for Test Cases

There were restrictions on the original GitHub repo, these have been resolved, and a large number of test cases have now been submitted as part of ISO18013-7 and now working on ISO 18013-6

ISO Working Group 10 and OIDF working together

OIDF and WG10 have both expressed intent to work together to avoid fragmentation and to harmonize online and proximity credential exchange protocols while recognizing existing implementations. Engagement is envisioned to commence in 2025.
